Colonising the Poor.

Mr. George T. Angell, in a letter to the Boston Advertiser, offers this suggestion in regard to colonizing the poor of the large cities on Western lands: Let some one or more of the hurches start the first colory by purchasing at small cost a town-hip of Western land, reserving the quarter sections and lots, giving to each em-grant a conditional deed of his land buildings, etc., which, on payment of what has been advanced, with interest shall vest in him a good title, subject to the regulations of the colony. These regulations may exclude the sale of liquor, the sale of obscene literature, the sale of adulterated and poisonous articles, provide for the best sanitary regulations, no cesspoolor other sources of fith emptying in-to wells, no had poison in drinking water; provide for kindergarten schools, for moral, humane, and re ligious instruction in all schools prohibit the use of profane languag provide that every person convicted of crime, or of violating the rules of the colony, shall leave the colony on payment of a low valuation for his property. Several colonies have been established in the West on plans similar to this, and many have adopted regulations as to the sales of the

ASH & ROBBINS,

208 FULTON STREET, BROOKLYN, N. Y. app 16-1 yr.

University of the St te of Missouri.

Cot. The Clark of the Bolt County Court:

To the Clark of the Bolt County Court:

Sir:—It is my thity to inform you that, under the provisions of an Act of the tieneral Assembly, approved April 1, 1852, (vide Seasion Acts, 1852, pp. 168-59.) your county is entitled to send to the departments of the State University at Columbia and Rolls, during the year ending July 4, 1858 Five students, between the ages of sixteen and twenty-five years.

Under the rule adopted by the Board of Curators, students "shall posses a good moral character, and shall yeas a setistactory examination in orthography, reading, writing, arithmatic and geography;" and must pay the fees prescribed by said Act, to-wit: Un matriculating, an entrance fee of five dollars and a like contingent fee at the beginning of the second half year, making the whole annual charge twenty dollars. The sension of the academic department, under the presidency of Samuel S. Laws Li. D., will begin on the

Second Monday in September, and will continue forty weeks. The session of the Medical and Law Departments will begin on Monday, October 1, 1877.

Ample provision has been made for the relucation and care of young women in all the classes of the University; and the relegant and commodicate "Simison Manssion" has been in charge of Prof. and Mrs. Swallow. who will receive such of the ladies as may desire to become members of their family, as far as the capasity of the house will extend. To those fortunate enough to be under their care will be secured the comforts and care of an elegant home, with the best social relatious and the highest literary culture.

the best social relatious and the arguest interary eniture.

I beg to call your attention to the appended extract from the law on this subject.

You will please, after giving two weeks publication of this certificate, transmit to me, on or before September lat, a list of sames of all the youth of your county who intend to make application for entrance into the University at the commencement of the next tagsion.

It such list is not trasmitted, students from pther equalities will be allowed to enter in lieu of those to which your county is entilled.

Board can be had in clubs in the 4 oliege huildings for male students at from \$1.25 to \$1.50 per week; in private tamilies at \$5.00 to \$4.50. I am, very respectfully, your ob't Servant, ROBT. L. TODD,

I am, very respectanty, your on the state as the bank.

ROBT. L. TUDID.

Secretary Board Curators University of Mo.

"The Secretary of the Board of Curators shall cause to be transmitted to the clerk of each county court in the State a certificate, stating the number of pupits that such county is entitled to send to the State University the next scholastic year, which ortificate shall be published by each county clerk for two weeks, in a newspaper published in each county. The expense thereof to be allowed by the county court, and paid for out of the county treasury."

Persons desiring to enter the departments of the State University at Columbia or Rolls, are required to make known their intention to me on or before Sept 1, 1871.

J. H. C. CURTIS. Clerk County Court Holt county, Mo

WOMAN

W. W. HANLY, WEST SIDE PUBLIC SQUARE, This Company is founded upon discoveries, inventions and improvements in the reduction and irrealment of tools and Silver and other core, which have recently been perfected. It is intended that its bininese shall be conducted by works of large capasity, which, for governing comercial reasons, will be near the City of New York, as well as hy branch work in the mining districts, and by sale of its batent rights to other reduction works in this and toreign countries. The discoveries and improvements upon which the Company is based, have been made by Professor A. K. Eaton, one of the shiest rhemists and metallurgists of the present day. They have been reached during a pruncical and personal experience in mining and kindred accupants extending over a period of more than thirty years.

Twenty-six years age Mr. Eaton invented and patented the Amedganisting Plates, which have ever since been in use at all the Loid and Silver mills throughout the mining region. If the use of these plates were discontinued to-day, the yield of gold would probabily in diminished one-half. In the same ways his later discoveries are valuable and effective, and are marked by the same occurating and simplisity. The ores of usariy all the gold and allver mines are rendered more or less difficult by the presence, in combination, of zinc sulphur, and other elements which involve great expense and time in working, and great loss of gold and allver, and other metals. Over this whole country many of these retriactory over are left unworked, because their working world be too difficult and expensive under present modes of restment. To all these ores Mr. Eston's processes directly supply. They rever their working control be too difficult and expensive under present modes of trestment. To all these were all the processes in the sun of an appreciate to many hundred thousand in so of ore are left unworked, because their working, and the combined by their process. For the purposes of the condition of the land of the condition of the present working toget Has just been refitted, and twenty raoms west turnished and in good condition, by the old J. T. Howell
